Re: Additions to Water Filtration Plant
Fort Wayne, Indiana

Gentlemen:

Due to a conflict in dimensions, the beam which was to support the masonry above the flat roof portions of the Chemical Building is out of alignment with the masonry. Therefore, it is necessary to provide steel support plates to carry a portion of the masonry load. Our quotation to furnish and install 3/8" x 11" steel plates the length of the building on the north and south sides of the high roof is as follows:

Labor	$ ~~840.00~~
Crane	~~120.00~~
Material	1,510.00 — (only)
Labor Fringes	~~193.00~~
Subtotal	~~$ 2,663.00~~
Supervision, Overhead, Profit	~~413.00~~
Total Cost	~~$ 3,076.00~~
	$ 1510.00

Re: Filtration Plant
Fort Wayne, Indiana

Gentlemen:

In response to your request, we quote the lump sum amount of $2,450.00 to make masonry repairs to the stone turret on the southwest corner of the existing pump building as follows:

1. Remove and reset stone carvings.
2. Remove and reset two (2) cut stone bands above carvings.
3. Remove and reset cut stone piers beside each carving.
4. Price based on being able to reuse all existing stone. Any stone replacement cost will be in addition to above price.

Very truly yours,

HAGERMAN CONSTRUCTION CORPORATION

Item 4:

This item includes payment for material only for a steel support plate to support masonry at the Chemical Building. In final coordination of the drawings, it was not apparent that additional support would be required. The Contractor has agreed to accept payment for material only.

Item 5:

This item is for repairs to the existing pump building masonry. Pricing for this work was requested by Mr. Patrick. We recommend proceeding with this work.

Total addition to the contract per Change Order No. ~~7~~ 10 is $12,536.00 which results in a revised Contract amount of $14,854,423.65 or less than 1 percent above the original contract amount.

We recommend approval of this change order.
